To whom it may concern,

We recently had the pleasure of working with Matthew of Schooley Mitchell. We asked Matthew to take a look at our current expenses in hopes he could help us find new ways to save our resources.

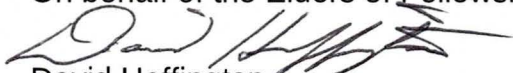

Matthew's team analyzed our expenses to determine whether savings could be found. This process was very easy from our end. All that was required was a quick conversation about our set up, access to our invoices and contracts, and then Schooley Mitchell did all the work from there.

We were very pleased when Matthew came back and told us that Schooley Mitchell was able to reduce our current waste services costs by 21 percent, without even changing our vendor.

After reviewing our telecom and payment processing set up, Schooley Mitchell found that our expenses are already completely optimized. This assurance is incredibly comforting, knowing that our budget has only been going towards what truly matters.

Overall, our experience with Schooley Mitchell and Matthew was wonderful, and we would recommend them without hesitation. Matthew is professional and passionate about the work he does!
