

To whom it may concern,

I would like to take this opportunity to write a letter of recommendation on behalf of an amazing organization, the GOA Regional Business Association. Founded in 1979, The GOA Regional Business Association is a not-for-profit, volunteer-driven business association dedicated to growing and sustaining the regional business community.

The GOA Regional Business Association has a diverse membership that ranges from major corporations to home-based businesses. It spans more than 80 communities in Northern, Illinois and includes professional, service, retail, and manufacturing businesses. It strives to provide businesses with essential advocacy, valuable networking opportunities, and enlightening educational seminars.

At The GOA Regional Business Association, it is truly the staff and the members that make all the difference. Everyone is committed to the collective vision of promoting growth by providing opportunities and creating alliances in the business community. From programs, events and training to marketing and public relations, its entire team goes above and beyond to support its members in every way possible to help expand their network and build their business.

I absolutely recommend The GOA Regional Business Association to anyone who is looking to grow their business. With the GOA Regional Business Association, you're sure to find unique business and personal development through networking, educational, and marketing opportunities.

Sincerely,

Neil Schwan
